The Foreign Employment Board (FEB) has allocated funding as part of its Approved Annual Program for Fiscal Year 2081/082, under Serial Number 4.3, to implement a residential based short-term skill development training program. This initiative is specifically designed to target female youths who are preparing for employment opportunities in international job markets where Government of Nepal have provision of free employment schemes such as Jordan, Cyprus, etc. The residential based training is targeted to the potential participants from remote locations where the required number of trainees to implement a training group in local level. The primary objective of the program is to equip these young individuals with the skills, competencies, and knowledge necessary to enhance their employability and overall effectiveness in foreign work environments. By focusing on skill development, the program seeks to empower participants with the tools they need to successfully adapt to and excel in the global workforce.

However, despite its strong commitment to supporting these aspiring female migrant workers, the FEB currently faces challenges in delivering the training program independently due to its lack of adequate infrastructure and skilled human resources. Recognizing this gap, the FEB Secretariat has announced its intention to collaborate with qualified Technical Training Providers (TTPs) that possess the expertise and capacity to implement the program in alignment with the FEB's objectives. The role of these TTPs will be crucial in ensuring that the training is delivered at a high standard and achieves its intended outcomes.

To ensure the selection of the most capable and cost-effective service providers, the FEB Secretariat will follow a Quality and Cost-Based Selection (QCBS) approach. This method, which is in line with the Public Procurement Monitoring Office (PPMO) Guidelines, involves a comprehensive evaluation of both the quality of the proposed training services and the associated costs. By balancing quality with cost-effectiveness, the FEB aims to select TTPs that are best suited to deliver impactful training while maintaining financial prudence. Through this program, the FEB seeks to make a significant contribution to the professional development and future employment prospects of the nation's female youth in global job markets.

PART II

Section 8. Conditions of Contract and Contract Forms

Foreword

- 1. Part II includes standard Contract forms for Consulting Services (a Lump-Sum Contract).
- 2. Lump-Sum Contract: This type of contract is used mainly for assignments in which the scope and the duration of the Services and the required output of the Consultant are clearly defined. Payments are linked to outputs (deliverables) such as reports, drawings, bill of quantities, bidding documents, or software programs. Lump-sum contracts are easier to administer because they operate on the principle of a fixed price for a fixed scope, and payments are due on clearly specified outputs and milestones. Nevertheless, quality control of the Consultant's outputs by the Client is paramount.
